Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of First Georgetown Securities, Inc. (the "Company") as of July 26, 2019, the related statements of operations, changes in stockholder's equity, and cash flows for the fifty-two week period then ended and the related notes and supplemental information (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of July 26, 2019, and the results of its operations and its cash flows for the fifty-two week period then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Auditor's Report on Supplemental Information

The Computation of Net Capital Pursuant to Rule 15c3-1 of the Securities Exchange Act of 1934 and the Exemption Provision of Reserve Requirements Pursuant to Rule 15c3-3 of the Securities Exchange Act of 1934 have been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the Computation of Net Capital Pursuant to Rule 15c3-1 of the Securities Exchange Act of 1934 and the Exemption Provision of Reserve Requirements Pursuant to Rule 15c3-3 of the Securities Exchange Act of 1934 are fairly stated, in all material respects, in relation to the financial statements as a whole.

FIRST GEORGETOWN SECURITIES, INC.

Notes to Financial Statements

1. Summary of Significant Accounting Policies:

Nature of Business: First Georgetown Securities, Inc. (the "Company"), a Delaware corporation, is organized to engage in the buying and selling of securities for businesses and the general public and is a broker-dealer registered with the United States Securities and Exchange Commission (the "SEC"). The Company is a member of the Financial Industry Regulatory Authority ("FINRA") and the Securities Investor Protection Corporation ("SIPC"). The Company is an introducing broker that accepts customer orders but elects to clear orders through a clearing broker for cost efficiencies. National Financial Services, LLC, a wholly owned subsidiary of Fidelity Investments Company, maintains all customer brokerage accounts for the Company. The Company's fiscal year ends on the last Friday of July.

Basis of Presentation: The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("GAAP") as determined by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"). The financial statements have been applied on a consistent basis with that of the preceding period.

Cash and Cash Equivalents: The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Accounts Receivable: Accounts receivable represents receivables due from the clearing broker, National Financial Services, LLC. The Company considers allowance for doubtful accounts based on factors surrounding the credit risk of specific customers, historical trends, projection of trends, and other information. No allowance was deemed necessary as of July 26, 2019.

Property and Equipment: Property and equipment are stated at cost. Major repairs and betterments are capitalized and normal maintenance and repairs are charged to expense as incurred. Depreciation is computed by the straight-line method over the estimated useful lives of the related assets, which range from five to seven years. Upon retirement or sale of an asset, the cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in operations.

Risks and Uncertainties: Financial instruments which potentially expose the Company to concentrations of credit risk consist primarily of cash. The Company maintains its cash balances in financial institutions insured by the Federal Deposit Insurance Corporation up to \$250,000. During 2019, there were no customer concentrations of revenue.

1. Summary of Significant Accounting Policies, Continued:

Revenue Recognition:

Adoption of ASU 2014-09: In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU 2014-09 Revenue Recognition from Contracts with Customers (Topic 606). The update modifies the guidance used to recognize revenue from contracts with customers for transfers of goods or services and transfers of nonfinancial assets, unless those contracts are within the scope of other guidance. The update eliminates all transaction and industry-specific accounting principles and replaces them with a unified, five step approach. The Company adopted Topic 606 as of July 28, 2018 under the full retrospective transition method. The adoption of Topic 606 did not have a material impact on the Company's financial statements and there were no adjustments recorded to previously reported amounts.

Significant Judgments: Revenue from contracts with customers include commission income and fees from advisory services. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied to uncertain future events.

Commissions: The Company receives commissions from the sale of mutual funds and other financial products to customers. The Company earns trail commissions on certain mutual funds sold to customers for a specified period of time that customer retains the fund. The Company records trail commission revenue as trail commissions are remitted to the Company from the mutual funds. The Company believes sufficient uncertainty exists outside of the Company's control as to the length of time the customer will remain in the mutual fund and therefore does not recognize trail commission revenue until the contingency is resolved. Revenue from the sale of other financial products is recorded on the settlement date, which approximates the trade date, because that is the date that the underlying purchaser is identified, the pricing has been agreed upon, and the risks and rewards of ownership have been transferred.

Advisory Fees: The Company provides advisory services on managed accounts for certain customers. The Company believes the performance obligation for providing these services is satisfied over time because the customer is receiving and consuming the benefits as they are provided by the Company. Fee arrangements are based on a percentage applied to the customers' assets under management. Fees are received on a quarterly basis and are recognized in the period for which the administrative, monitoring and identification services are provided.

FIRST GEORGETOWN SECURITIES, INC.

Notes to Financial Statements, Continued

1. Summary of Significant Accounting Policies, Continued:

Revenue Recognition, Continued:

Trading Income: The Company buys and sells securities on behalf of certain customers. Trades are run through the clearing firm and by direct trades by registered representatives. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commission revenue and related clearing expenses are recorded on the settlement date, which approximates the trade date, because that is after the underlying purchaser is identified, the pricing has been agreed upon, and the risks and rewards of ownership have been transferred.

Interest and Other Income: interest, dividends and other income are received throughout the year and are recognized in the period for which the services are provided.

Trading Securities: Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities and commodities transactions entered into for the account and risk of the Company are recorded on a trade date basis.

Advertising Costs: The Company expenses advertising costs as they are incurred. Advertising expense was \$2,268 for the period ended July 26, 2019.

Income Taxes: The Company accounts for deferred income taxes by the liability method. Deferred income tax liabilities are computed based on the temporary differences between the financial statement carrying amounts and income tax basis of assets and liabilities using enacted tax rates in effect for the years in which the differences are expected to reverse.

The Company follows the FASB guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense and liability in the current year. Management has evaluated the Company's tax positions and concluded that the Company has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. The Company is not currently under audit by any tax jurisdiction.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period reported. Actual results could differ from those estimates.

FIRST GEORGETOWN SECURITIES, INC.

Notes to Financial Statements, Continued

1. Summary of Significant Accounting Policies, Continued:

Accumulated Deficit: The deficit does not represent obligations of the Company.

Subsequent Events: Management has evaluated subsequent events through September 23, 2019 the date the financial statements were issued, and has determined there are no subsequent events to be reported in the accompanying financial statements.

2. Fair Value Measurements:

The Company follows FASB guidance for measurement and disclosure of fair value which establishes a three-tier fair value hierarchy and prioritizes the inputs used in measuring fair value as follows:

Level 1 Unadjusted quoted prices that are available in active markets for the identical investments at the reporting date.

Level 2 Other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly.

Level 3 Unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for investments carried or disclosed at fair value:

Level 1 securities include money market funds and mutual funds for which quoted prices are available in active markets.

Level 2 trading securities include stocks for which quoted prices are not available in active markets for identical instruments. The Company utilizes a third party pricing service to determine the fair value of each of these investment securities. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FIRST GEORGETOWN SECURITIES, INC.

Notes to Financial Statements, Continued

Fair Value Measurements, Continued:

Current state income tax provision	1,972

- 4) Recalculated the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments, noting no differences; and
- 5) Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed, noting no differences.

We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on First Georgetown Securities, Inc.'s compliance with the applicable instructions of the Form SIPC-7 for the fifty-two week period ended July 26, 2019. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.
